

The Golden Ticket

Written by Robert Dickinson
For the church of Philadelphia on March 11, 2022

We have our ups and downs just like you. We expected the sign of the Son of man on March 7, 2022, but instead we received a dream—one which seemed to indicate a longer wait (and here we still are). We could not then know that our initial sense of disappointment and discouragement would soon not only vanish as we continued to trust in the Lord and press forward to re-study the things He had shown us, but that our sorrow would be overwhelmed with sacred joy as we began to see the sign of the Son of man that we had been hoping for, in a way that communicates to the soul a more grand and glorious message of assurance and deliverance than we had imagined possible to see with our human eyes.

One cannot exaggerate how great the Lord is, or how marvelous His plans are. It is only possible to underestimate and overlook the significance of all that the Lord does, out of the abundance of His love, with His divine eye always searching out the best interests of His kingdom and everyone who belongs to it. Not recognizing the depth of God's ways is a limitation of our weaknesses, but those who love and understand God will recognize Him through the works He has done.

The first hypothesis as to what could have been misinterpreted in the heavenly signs pointing to March 7, 2022, was that perhaps the moon and Uranus in the hands of the ram (Aries) was one month off. A similar sign can be seen on April 3, 2022, with an even "sharper" sickle moon—even being one of the possible sighting days for the first crescent moon:

The real breakthrough, however, came that evening (of March 7, 2022) when it was noticed that Comet C/2021 O3 PanSTARRS was crossing the ecliptic **very near the vernal point, the seasonal marker where the sun will be when spring officially begins**. This would be significant in light of the fact that this same comet was marking the raised hand of Aquarius as the Father **swore the oath** of the day and hour of His Son's coming. We had not seen the literal sign of His coming, but could this crossing of comet PanSTARRS give a clue as to what time the Father really meant with His oath?

This breakthrough discovery was made in the evening of March 7, thus technically already the next day in Jewish terms. It led to a fruitful late-night study that continued into the morning hours of March 8, 2022. We invite you to watch again the first four minutes of [The King Has Sworn](#) to appreciate the significance of **this very moment when the oath of the Father was first understood**, as it was foretold by divine leading one year in advance! God plays the long game, and apparently, we weren't seeing the whole picture.

Could the discovery of the comet's coming from the hand of Aquarius as a symbol for the Father's oath and then crossing near the spring equinox date of March 20, 2022, mean that this is the day sworn for the coming? Could it somehow corroborate the sign of the sharp sickle moon in the hand of Aries on April 3, 2022, exactly two weeks later (which would be enough time for His coming in seven days and our travel to heaven for another seven days)?

Notice that on the same day (picture above) when Aries has Uranus and the moon in his hands, Mercury is in conjunction with the sun. This could even be a fitting sign that the children of God (represented by Mercury) have "come up hither" in obedience to the voice from heaven.

And they heard a great voice from heaven saying unto them, Come up hither. And they ascended up to heaven in a cloud; and their enemies beheld them. (Revelation 11:12)

The crossing of the ecliptic is perhaps the last significant point in the journey of comet C/2021 O3 PanSTARRS before it proceeds to hook the jaw of Cetus (Leviathan) as detailed in [The Maiden and the](#)

Millstone in fulfillment of multiple verses such as the following, and would thus be a fitting mark in relation to the binding of Satan for the thousand years.

And I will turn thee back, and put hooks into thy jaws, and I will bring thee forth, and all thine army, horses and horsemen, all of them clothed with all sorts of armour, even a great company with bucklers and shields, all of them handling swords: (Ezekiel 38:4)

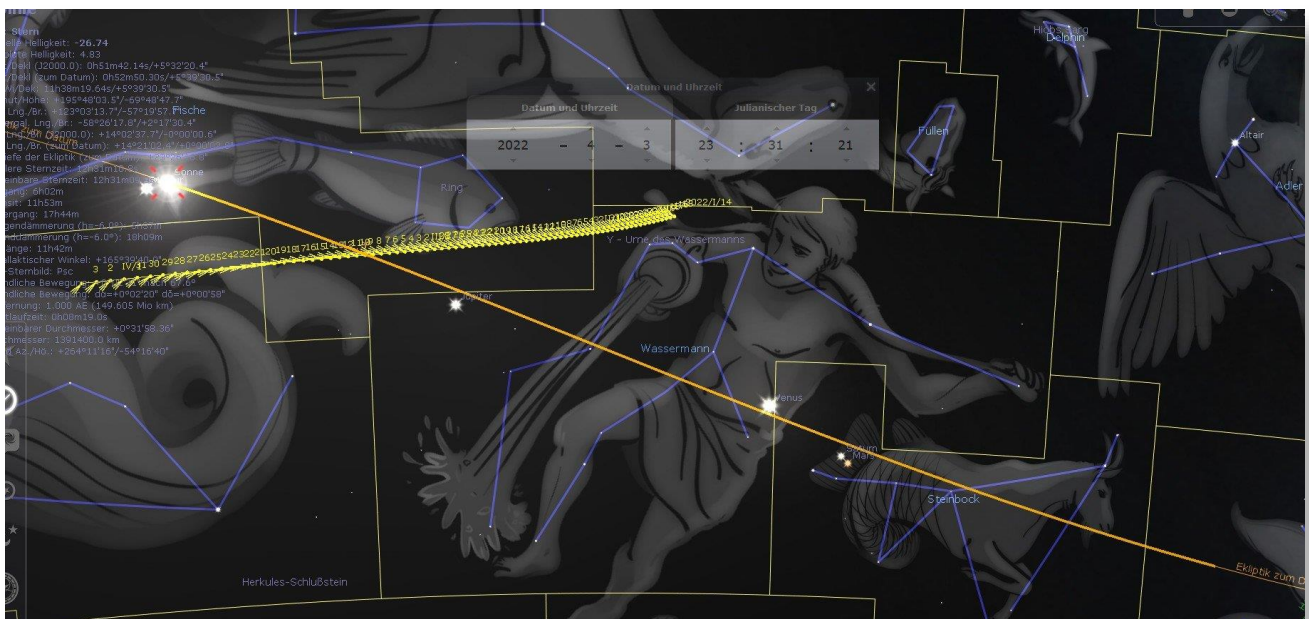

This was just the beginning of what would be discovered on that night of March 7/8, 2022, which would reignite the joy of eternity in our hearts as the light of God was about to flood into the soul. Nothing could prepare us for the glorious sight that was about to unfold to our eyes when twenty minutes after midnight Brother John asked for a picture of the heavens that showed the entire timeframe of the oath of the Father...

The Cross Appears

The timeframe of the Father's oath began on **January 14, 2022**, with the recognition that the eruption of the Hunga Tonga volcano was the **earthly sign of the Father's voice**, complementing what was happening in the heavens in light of the oath of Revelation 10. On that same date, comet C/2021 O3 PanSTARRS was in the position of Aquarius' raised hand, signifying in heaven what the volcano voiced on earth as its shock waves rolled around the globe. Therefore, Brother John wanted to see an illustration of the heavens from that date forward, including the point when the comet crossed the ecliptic, until the time when the sign of Uranus and the moon appeared in the hands of Aries on April 3, 2022.

Please show us the CROSS with ecliptic and PanSTARRS from Jan 14 to April 3. On the ecliptic, we need to bold the line that the Sun traverses in the same timeframe.

To the discerning eye, the resulting image was a perfect representation of the cross of Christ, as viewed from an oblique angle:

Notice the vertical beam of the cross traced by the sun along the ecliptic (as if the cross is laying down) and the horizontal crossbeam drawn by the comet's path during the same timeframe.

The cross is clearly formed, but (like it probably is to your eyes) it was not immediately apparent what was meant by this picture and how significant it is—even how significant this very moment of discovery was, when this image (reproduced exactly) was contemplated by Brother John and captured by Brother Gerhard during their midnight study. The light that began to pour forth from God's word flooded through the next day, March 9, in a spirit of spontaneous and joy-filled study. The moment of the discovery of that picture had come **just when the comet had crossed the ecliptic**, and there those two brothers stood at the center of the cross where the two beams were connected.

A writer must confess his inability to communicate the depth of meaning here, because a one-dimensional string of words can never adequately express the multifaceted significance of the four-dimensional reality (including time) in which we operate. These are the same two brethren who represented the two witnesses in [the dream](#) that was given to Brother John in 2019 **in answer to the question of the time of the rapture**. The dream was almost completely deciphered in [The War Everyone Fears](#), yet on this March 8 came a living enactment of these two brethren making a significant discovery—even if they themselves hadn't yet realized how significant it was. Could there be even more meaning in the dream? (Incidentally, these are the same two—Brother John and his friend—who were by the cross in the dream [The Fourth Angel](#).)

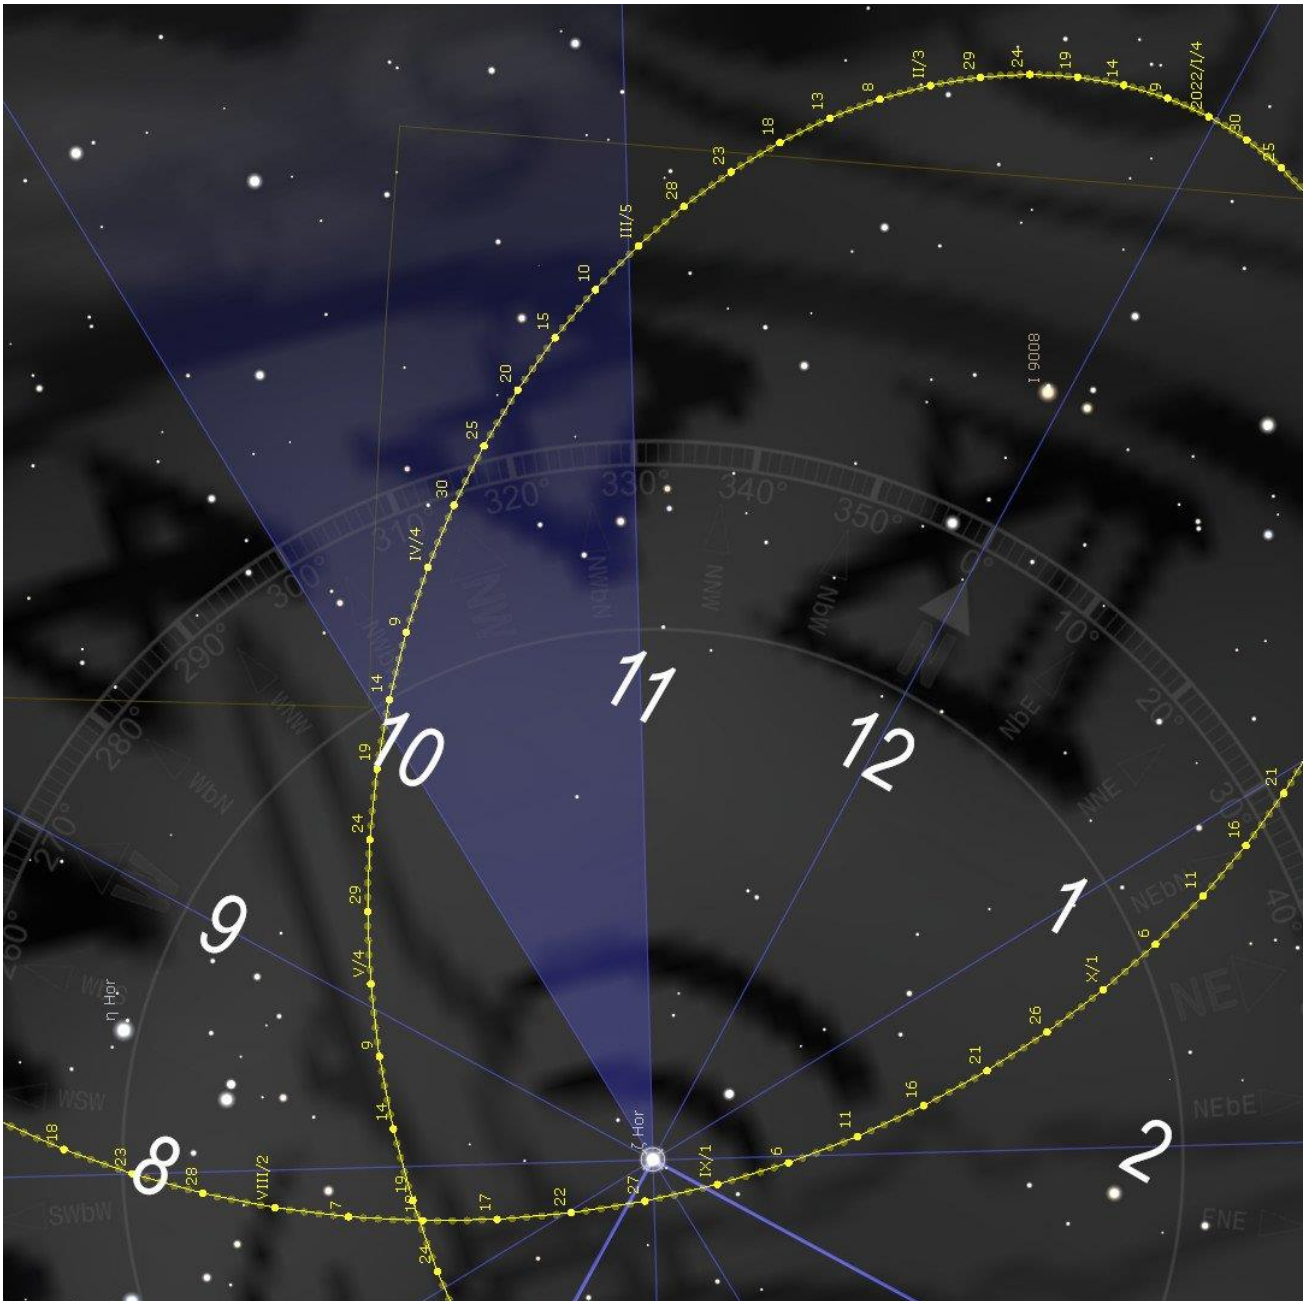

That was one "dimension." Another dimension is the fact that this discovery happened on March 8 and the main study continued into March 9, 2022. This is significant not only because it was foreshadowed by the oath of the King on the Betelgeuse date of [March 8, 2021](#) the year before, which is marked by Orion's right hand, but it was even alluded to by the [harvest rainbow](#) of Orion's same raised right hand of March 9, 2016, in the preparatory plague cycle, in connection with the final harvest. What does it mean when the center point of the cross is connected not only to the Father's oath but also to the sharp sickle of Jesus' right hand in the description of His second coming to reap the redeemed from the earth?

It was clear that the discovery of the cross was a big one, but exactly how big would not be understood until after some initial refinements had been made to our overall understanding of the timeline of Christ's return that was brought to light by it.

World Context

It is perhaps ominous that a cross appears in the heavens at a time when the world is living in fear of the worst war known to mankind. The comet crossed the ecliptic on March 8, 2022, just days after the eleventh hour ended on the [Horologium clock](#). It was on the new-moon High Sabbath of March 5, 2022, that the eleventh hour ended according to the comet in the Horologium constellation, and after that (as of March 6, 2022) began the tenth hour, as the comet travels in the counterclockwise direction of time.

For the cross to appear right after that suggests a turning point in the fall of antitypical Babylon, which is the conglomerate world as we know it today. Apparently, the hour of mystical Babylon's fall is the tenth hour according to the clock, which we have now entered.

To our senses, this is the hour after the eleventh hour, when the last work was done according to the parable of the vineyard, and the time has come for the reward to be given.

So when even was come, the lord of the vineyard saith unto his steward, Call the labourers, and give them their hire, beginning from the last unto the first. (Matthew 20:8)

It is thus time for the wages to be given both to the righteous and to the wicked. At the core of Babylon's fall is the collapse of the monetary system that supplies the entire world beast, and the press is well aware that the war between Russia and Ukraine is threatening on this front.

[War fallout: U.S. economy to slow, Europe risks recession and Russia to suffer double-digit decline](#)

[Rising Gas Prices Have Drivers Asking, 'Is This for Real?'](#)

The economic impact of the Russia-Ukraine war is something that is threatening to undo the already tenuous world financial system, and if it goes on without destroying the world, it will inevitably accelerate the birth of the new financial era—the era of "fintech" or financial technology. In simple terms, money is being computerized. Soon every penny will be as trackable and censorable as your Facebook posts or your Google browsing history, and this means every aspect of your life will be under the control of government authorities, which always tend toward oppression. The [only alternative](#) would be a truly [decentralized money](#) that individuals and governments would be able to use but not to control or censor.

In other words, we are heading full speed into an era of totalitarian control of every facet of human existence. The following video describes the situation very well: [Custody Of Your Own Assets Is The Next Battle Ground](#)

From a biblical perspective, it is not difficult to understand that if cash (the liquid of the financial system) itself becomes government controlled, we have entered fully into the era of the Antichrist, where permission is needed for every aspect of buying and selling.

And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name. (Revelation 13:17)

It is quite telling that just now, many nations are declaring an end to the COVID crisis with headlines such as this one from Germany: [Government finalises plan to lift most COVID restrictions on March 20](#). Isn't it convenient that just when the COVID crisis is nearing its end, the war crisis is ramping up? Isn't it interesting that COVID restrictions will be lifted in Germany on the exact date of the spring equinox as indicated by the cross that has been discovered in the heavens?

The second woe is past; and, behold, the third woe cometh quickly. (Revelation 11:14)

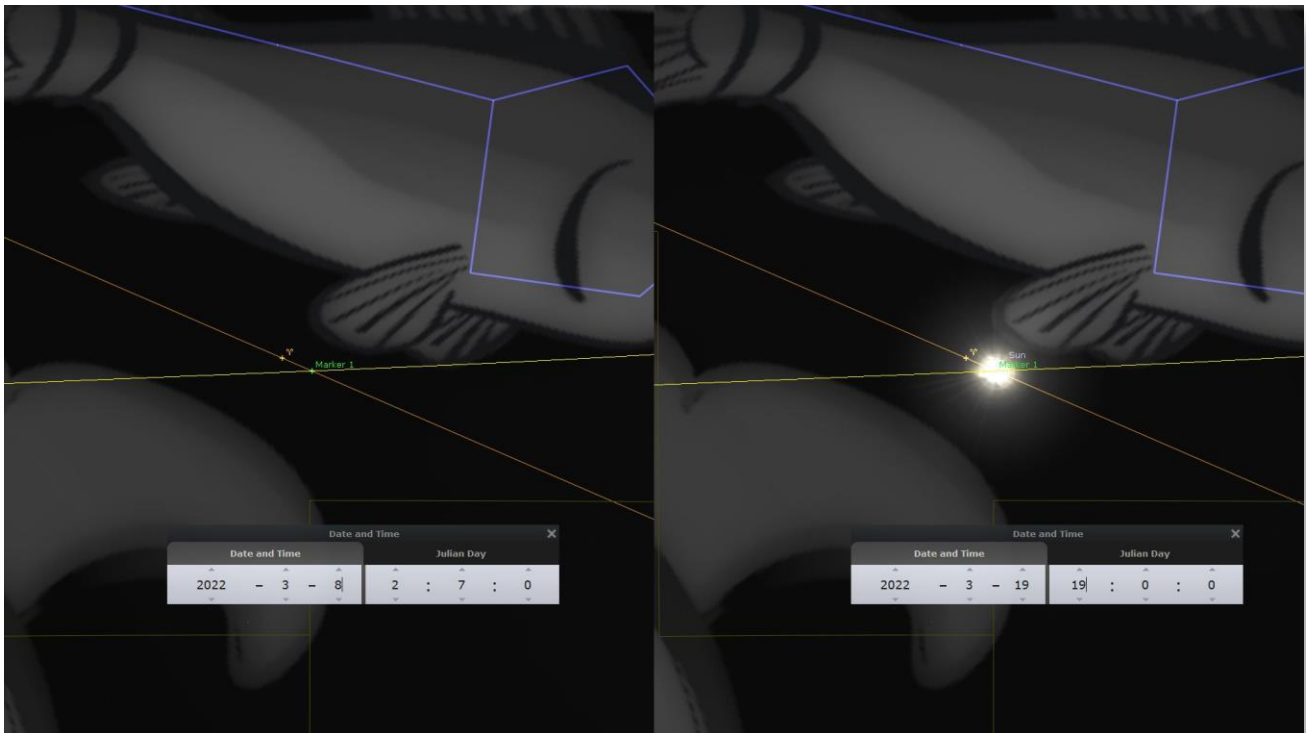

If you have read our articles such as [The Number of the Seed of God](#) or [Satan's DNA Decoded](#) , then you know that the COVID vaccine served to enlist the populaces of the nations of the world under one army: the army of the [false christ](#) who pretends to be the healer of the world. Simply put, getting an additional strand of DNA (or mRNA) added to your body is to receive the number of the beast, and probably only such ones would ever be entitled to receive the new digital money foisted by the false savior.

This is the world context in which the sign of the cross appears, and the more one understands exactly what they will be saved *from*, the more they will appreciate and look forward to that salvation.

The Cross Marks the Spot

If we take a very close look at the point where Comet PanSTARRS crosses the ecliptic, it is actually slightly before the vernal point. We can mark it with a marker and compare when the sun will reach that exact point:

In our Paraguayan time zone, the sun will reach this point in the **evening of March 19, 2022**, so the Jewish day of March 19/20, 2022 is clearly the day indicated. Seeing that the oath of the Father is traced by the comet from the hand of Aquarius to this very point, this crossing point presents itself as the date of the coming of Jesus when the literal appearance of the sign of the Son of man should be seen.

The emplacement of the two beams of this cross was prophesied in a dream on May 25, 2008, entitled [The Cross](#). This was highly significant because after nearly two millennia since the crucifixion took place, the best of Bible scholars have fallen short of being able to come to any consensus regarding the date on which Jesus made the ultimate sacrifice. It was not until Brother John studied it correctly in the article [Full Moon at Gethsemane - Part II](#) that the world could know of a certainty from all the pieced-together historical evidence (including a proper reconstruction of the biblical calendar, which follows the sun and moon) that Jesus really did die exactly as it is recorded in the Bible. Read [Full Moon at Gethsemane - Part II](#) for yourself and know that Jesus died on no other day than **Friday, May 25 in the year AD 31**—the same day of the year on which the prophetic dream was dreamt.

A few words fail to convey how significant that discovery was: the High Sabbath on which Jesus rested in the tomb was rediscovered!

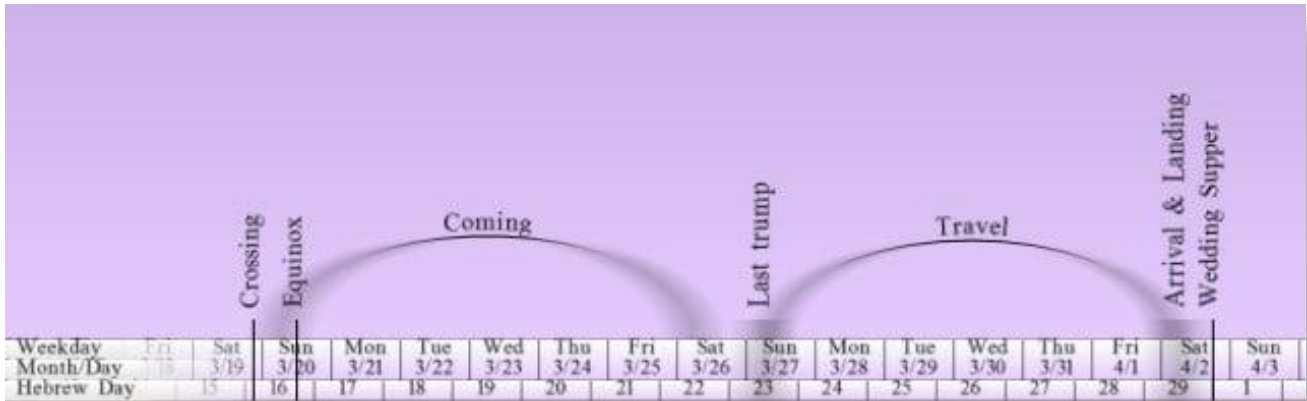

The Jews therefore, because it was the preparation [i.e. Friday], that the bodies should not remain upon the cross on the sabbath day, (for that sabbath day was an

high day,) besought Pilate that their legs might be broken, and that they might be taken away. (John 19:31)

It was the cross that pointed to the date of Christ's crucifixion, and by contemplating and studying every detail of His final hours on earth, it was possible to understand the time of God's choosing for that important event.

So, what can it mean to find the beams of the cross in the heavens, pointing to March 20, 2022? Can this be an indication of anything less important? If we would draw a timeline of events as we presently understand them, it might look something like this:

If the Son of man appears on March 20, 2022, as indicated by the sun reaching the comet's crossing point, and the cloud of reaping angels is seven days traveling to the earth, then the great day of the resurrection of the dead and the rapture would fall those seven days later on March 27, 2022. Another seven days lead to Sabbath, April 2, 2022, as the day of the saints' arrival in heaven for their coronation, with the marriage supper to be held that evening.

This is how the Father declared the time by His oath with comet C/2021 O3 PanSTARRS marking His hand. He drew the line that crosses the ecliptic saying "time no longer!" This line represents the heavenly "deadline"—the limit of His forbearance—for Christ's return. The Father's oath, as we deciphered it, stands firmly.

Furthermore, the fact that this cross point occurs hours before the spring equinox suggests that it has something to do with the turn of the year, which in antiquity began in the spring. According to the biblical calendar, the year began with the first month (i.e., the first visible crescent of the moon) **after** the spring equinox, subject to the barley maturity test. This means the first crescent new moon that might be sighted on April 3, 2022, will be the beginning of the next year, and thus the entire timeline from the coming of Christ to the marriage supper falls within that timeframe.

This is significant in light of the Father's oath, because it is a deadline in another sense: if the new year would begin before the rapture, then the "thousand years" of Satan's bondage would be less than a thousand years. The coming of Jesus before the biblical new year begins preserves the count of exactly 1000 years (inclusive) from the current year (i.e., the 2021 year, as counted from spring equinox to spring equinox, till the year of the landing in heaven after the millennium, which is the year 3020).

Thus, the seal of Philadelphia remains intact! If you have been experiencing disappointment, do not be discouraged. Notice the words of Ellen G. White and think about what they mean in light of this discovery:

Christ has declared that **the cross which makes the line of demarcation between his people and the world so distinct** is not a cross of discouragement, but a cross of salvation. **Love for the Saviour** will lead us to acknowledge this. God has given human beings all that ministers to their happiness, and in return he asks them to lay their gifts and offerings on his altar. Shall we disregard this requirement? Shall we fail of offering God praise and thanksgiving in word and deed? {RH November 20, 1900, par. 14}

Above all else, God shows His love for us in this picture of the cross. The Father's oath shows the sacrifice He made in giving His Son, and the sacrifice His Son made in giving His life. We are in the heart of Jesus and in the Father's heart, and thus we are in the center of the cross. If we love Him, how can we do anything other than give praise and honor to Him for so great salvation!?

The Golden Ticket

Recently we [shared](#) the following dream from Sister Miriam:

Dream of Miriam
January 26, 2022

In the world, you could see people partying in different places, drinking, dancing, as if nothing mattered to them. It was night; you could see the stars. You could see perfectly the three stars that we know the meaning of: Alnitak, Alnilam, Mintaka. Suddenly, the star Alnitak—only in it, there is a big explosion. It lit up the whole sky. It comes off as if it were a ball of fire that transforms into a ship. People on earth were paralyzed. Many were hiding in their homes, or wherever they could. Suddenly a ship, not so big, descended to a height where it could be seen better. **Some people lined up and showed a piece of paper, or permission. That was the pass to go up to the ship.** The world was deserted. So much music, so many dances, so many drunken. Now you could only see the people showing that pass to get on the ship.

This piece of paper represents the boarding pass that a person needs to have in hand in order to travel on a ship or airplane. This is analogous to the ticket that Ernie Knoll described in the [Two Cars](#) dream that forms **the chiasmic center (i.e., the "crossing point")** of Ernie Knoll's first two dream pages.

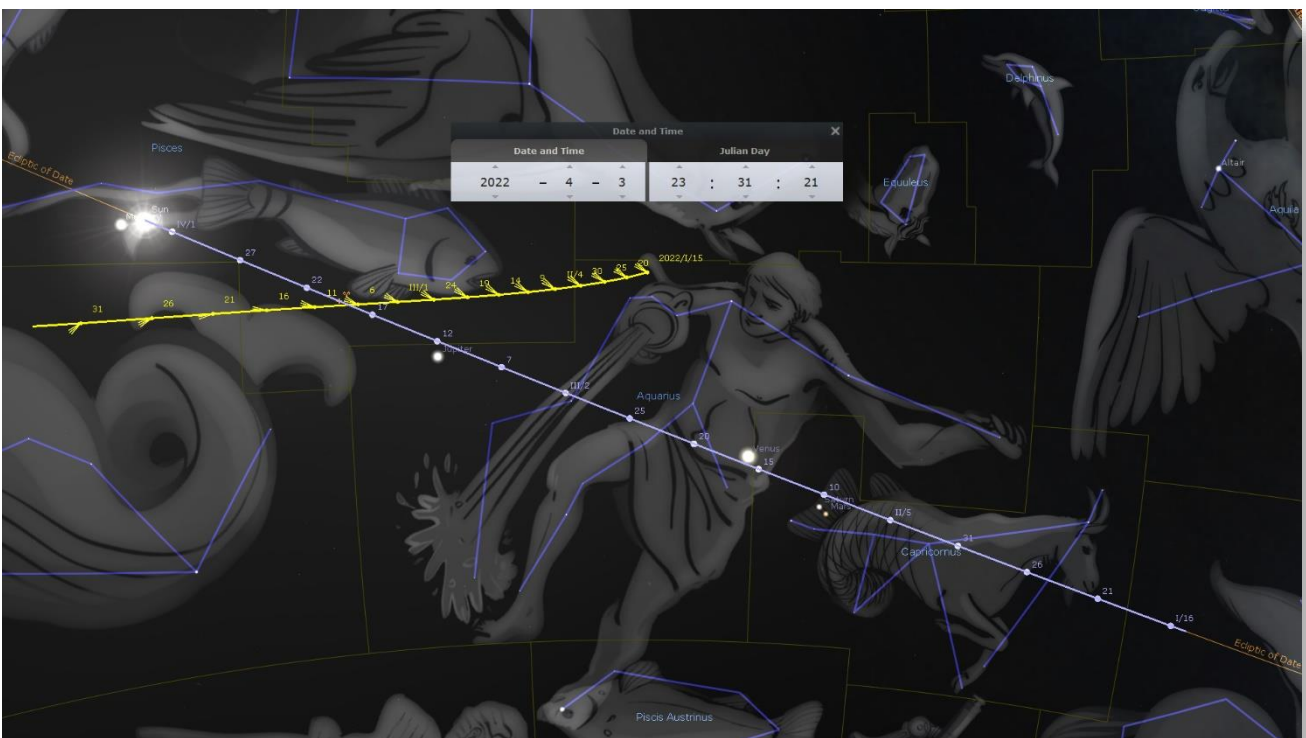

A note regarding Ernie Knoll would be in order here, especially for those who have not been with us for a long time. We have long since recognized him as an antitype for the biblical Balaam, who was once a true prophet of God, but fell to filthy lucre, and ended up in Satan's grasp. Nevertheless, as the Bible records, he could only bless Israel, though he sought to curse them. Ernie's earlier dreams, before he fell, were the most helpful to confirm our studies, but as he fell into a desire for self-importance, his dreams became more and more tainted and the confirmations less frequent, until the most "recent" dreams he has had make it difficult to extract much good from them, just as Balaam also finally ended up completely in the control of the enemy. Thus, while we do still refer to some of his old dreams from before 2011 for confirmations, we strongly advise discretion to anyone reading his later dreams, because he has definitely become a fallen prophet and is no longer on God's side.

Read the [description](#) of this ticket again, and ask yourself whether you have seen this ticket and hold it in your hands:

As I turn to go in the building, I see a ticket machine and I cannot go in unless I get a ticket. As I pull on my ticket it slides out of the machine easily. It is made of pure gold, will not crease if I fold it and cannot be torn. It is about 12 inches long, 7 inches high and thinner than a human hair. On the front of it in dark red letters are the words "ADMIT ONE." To the left is a blue picture of the Ten Commandments. To the right in white is a picture of a cross and below it are the words, "Stand on the wood, as the wood is truth." In the middle is a picture that turns as you look at it. It is the most beautiful picture of Jesus coming in the clouds. This picture is made up of all different colors. I turn the ticket over and what is on the front can be seen through the back. It is not reversed and is clear on both sides.

Think about that ticket in light of the picture again:

Notice that the dimensions of 12 by 7 inches are similar the dimensions of the cross as described in the dream [Stand on the Truth](#) :

STAND ON THE TRUTH

June 20, 2007

Ernie Knoll

In my dream, I have an angel next to me on my right side. He is telling me to only stand on the wood. He says that the wood is truth. I look down to see that I am standing with one foot on each of two large wood beams that appear to be about a foot square. **One is about seven feet long and the other about twelve feet long.** I notice each has a large notch cut out that looks about six by twelve inches. I look up at the angel and he says again to only stand on the wood as the wood is truth. If I am not on the wood, there is no truth. I look down at the wood again

and notice they are rough cut beams of wood, as if a workman has used crude tools. I look back up at the angel and he says again that the wood is truth, to only stand on the wood.

Are you beginning to understand what the ticket is? It is the picture of the cross! Note that a typical modern computer display has an aspect ratio of 16:9. To say it another way, imagine if a screenshot of the cross in heaven were printed on paper like the ticket in the dream, with a height of 7 inches. The width would therefore be $7 \text{ inches height} \times 16 \div 9 \text{ aspect ratio} = 12.4 \text{ inches width}$, or **about 12 inches**, as the dream says:

It is about 12 inches long, 7 inches high and thinner than a human hair.

Of course, the two-dimensional projection of the heavens onto your display is also "thinner than a human hair," because a 2D projection has no thickness by definition because of the missing third dimension. Are you beginning to feel the excitement of holding the golden ticket to heaven in your hands!? Notice the other details of the description of the ticket:

It is made of pure gold, will not crease if I fold it and cannot be torn.

Since we are dealing with a picture of the heavens, it is clear that nothing we do to it will affect it. What is in the heavens cannot be marred or torn. Furthermore, it is described as being made of "pure gold" which is the biblical symbol for the sanctuary of God, which used pure gold extensively in its construction **according to the pattern of the heavenly sanctuary**. Pure gold represents the inestimable value of the heavenly inheritance in comparison to the things of earth, insomuch as gold was incomparably more valuable than even silver in the days of Solomon.

And all king Solomon's drinking vessels were of gold, and all the vessels of the house of the forest of Lebanon were of pure gold; none were of silver: it was nothing accounted of in the days of Solomon. (1 Kings 10:21)

This also has a deeper meaning, because the sanctuary part of our earthly "temple" building, which has been **newly renovated**, was intentionally built with the dimensions of 12 meters by 7 meters in recognition of the biblical significance—**the same aspect ratio of the cross and the ticket**. In other words, the picture of the cross in heaven is also a picture of the temple of God in heaven: the true pattern for His temple on earth.

The golden ticket represents this scene in the heavens where the temple of God is, where Jesus instructed us to "look up" to, and which Solomon's temple was a proxy for.

And hearken thou to the supplication of thy servant, and of thy people Israel, when they shall pray toward this place: and hear thou in heaven thy dwelling place: and when thou hearest, forgive. (1 Kings 8:30)

In this picture we see the dwelling place of God the Father (represented by the house of Aquarius) declaring the time of His Son's return under solemn oath. This is where His throne is—pure gold!

Furthermore:

In the middle is a picture that turns as you look at it. It is the most beautiful picture of Jesus coming in the clouds. This picture is made up of all different colors.

What heavenly body is in the middle of the ticket? It is Jupiter, that "turns" as you look at it—faster than any other planet including the earth. In the words of Wikipedia:

Jupiter's rotation is the fastest of all the Solar System's planets, completing a rotation on its axis in slightly less than ten hours...

For a planet as large as Jupiter, it "turns" quite fast "as you look at it." If you have seen the recent pictures coming from the Juno probe and understand that Jupiter represents the [great white cloud](#) , then you can understand why it is described as "the most beautiful picture of Jesus coming in the clouds" and being "made up of all different colors."

Doesn't your heart melt as you see how much love God has put into the path of your salvation? Do you see how much He cares about you? Searching out the time of Christ's return isn't just about hearing the day and the hour. It is about a walk with Jesus in the warmth of the Father's love. It's about being at peace with Jesus, no matter what this world throws your way. And when you are there—when your two feet are "standing on the wood" at the only place where both of the foot-wide beams of the cross come together, then you know that you are where you should be: "in the heart of Jesus."

There is so much more you can study about this sign, but to close this post let us ask one question: Did the sign of the Son of man appear on March 7, 2022? Did the dream of Brother Aquiles, which prompted all this, lead to you seeing the sign that all Christians recognize as the universal symbol of our Lord?

The cross is depicted in all Christian churches, regardless of denomination. It is the one symbol, the one sign, that everyone in the world—Christians and non-Christians alike—can recognize as the sign of the Son of man.

Neither is there salvation in any other: for there is none other name under heaven given among men, whereby we must be saved. (Acts 4:12)

In future parts, we will explore the many facets of this sign in more detail, as it spans a period of time with many significant heavenly arrangements that tell a story we have only scratched the surface of in this post. You are encouraged to study with the Lord in the meantime for a greater blessing.
